

camp in the evening the Second regiment and the four companies of the Nineteenth United States infantry surprised them, and in a brisk battle defeated their adversaries.

Captain's Adventure.
Captain Baldwin of the Nineteenth regiment, who was with the First on its march, was out of from his command. The Second had on the day before captured the Spanish, and he had no desire to have the experience repeated, so he adopted a heroic way out of it. He was mounted on a gray horse and the captain gave him the reins and put spurs to him. He took the fence and in a moment the captain was being carried at a wild gallop down the railroad. He had blown off and his white hair whirled with the wind. The tracks were crowded with spectators who had been watching the fight, and the captain ordered them off the track. After going at this speed a distance of about two miles he reached a culvert about twenty feet high, and he drove up creek. As he ran the horse fell through and the captain was thrown with great force to the bridge and his pursuers nearly caught him. His horse had been stopped and the captain, at his own request, was again lifted into the saddle and continued his ride, reaching the camp where his pursuers were waiting. He went to the brigadier-general's quarters, where two regiment surgeons were called and examined him. It was found that he had sustained internal injuries, but how severe they are the doctors were unable to state, but it is hoped they will not be serious.

Use of the Finest.
He is one of the finest as well as handsomest officers in camp, and is detailed here to instruct the militia. He is attached to General Miles' staff. After the accident at the bridge his feet showed him to be in pain, but like a true soldier he made no complaint, and while the surgeons were working with him he was patient and assisted them as much as possible. He was taken to the governor's headquarters and is resting as easy as could be expected.

Today will be a big one in camp. Thousands of visitors will flock here to see the citizen soldiers. Excursion trains will be run from Grand Rapids and Detroit.

Col. C. W. Campbell of Grand Rapids is in camp, the guest of General Robinson.

Al. Fletcher who has been in the hospital, was discharged this afternoon.

CRIMINAL INSANITY.
Is It Careless Looked After in the State Prison?

JACKSON, Aug. 20.—If the law takes its course the result of the inquest in the matter of the recent murder will result in an investigation into the care and treatment of the convict inmates by the prison management. The coroner's jury on Wm. Cuddy's death has been in session today. The only new thing was the testimony of Horton, a fellow convict and constant companion of Blackman, and one who saw Blackman many times each day. Horton had noticed Blackman's strange actions and always thought him crazy. The jury adjourned at noon and declared that the matter is to be fully gone into to determine if any carelessness exists relative to life convicts or insane ones.

She fell a distance of twenty-five feet on to a gravel bed, turning handsprings on the way down. Strangers to say she was only slightly bruised.

Editor's Note.
A dispatch from Jackson to the Detroit News says that ex-Mayor M. G. Loomis, a leader of the people's party in Michigan, today instituted suit against the Jackson Courier. He claims \$10,000 damages for a recent publication which charges that he is a

partner of the prison broom company, thus constituting his party's platform against convict labor.

Embryo Henry Blackman.
SARASOTA, Aug. 20.—Last evening a man giving his name as James Louis Falls of Williamsport, Pa., abruptly stopped Officer Bishop and said: "I want you to look me up or I will kill somebody. I've got the feeling coming on me now and you had best be quick if you wish to prevent a murder." He was promptly accommodated. Later on he was interviewed by the reporters and said that he was going to die on August 22, which would be his 20th birthday. That several members of his family knew beforehand when they would die, set the date and kept it. He wanted to have a priest call and administer the holy communion.

FROM O'ER THE SEA

The Radicals Are Angry at Gladstone.

OUR LABOR TROUBLES ABROAD

English Workmen Looking for an Insurrection—A Leader's Opinion.

Foreign Gossip.

LONDON, Aug. 20.—The radical revolt is serious. There is no mind of gainsaying that the radicals are angry. They make no concealment of their rage at being rejected by Mr. Gladstone in his cabinet selections, and of their purpose to assert themselves at the coming session of parliament. The radicals assert that but for their votes Mr. Gladstone would have been left in the minority, and the ministers are no more representative of the masses that constitute liberal majority in the late election than Lord Salisbury himself. They declare that the time has passed for the people of England to be represented in a liberal cabinet by aristocrats with titles and tuft hunting candidates for titles, and that the people are now strong enough to see that the men of the people shall have a voice in the government.

Causing Anxiety.

It is reported that there is a strong probability of an approach between the radicals and the Parliaments. Should such a combination be formed the cabinet would either have to bow to their wishes or resign. The Parliaments alone do not control votes enough to defeat Mr. Gladstone, but united with Mr. Leitchmere and his associates they could easily ruin the Liberal government. The situation is causing anxiety which Mr. Gladstone is known to share, and the only solution appears to be such recognition of the radicals as will limit their power to their ranks. This, at present is not probable as Mr. Gladstone is said to be entirely bound up with his whig advisors.

Read the Bulletin.

The greatest interest is felt here in the labor troubles in America, and the newspapers are making the most of the subject, as a text to run down the republic. The news from the coal miners of Tennessee, the iron workers of Homestead, and the striking switchmen of Buffalo is read with an interest that is significant, and it is evident from the muttering heard among the crowds as they scan the bulletins or peruse the newspapers that the success of a labor insurrection in America would be speedily followed by a similar uprising in England. There are thousands of people out of work and desperate for both organizations any deed of violence without regard to legal results. These people need but a leader and a banner to start a riot that would rival the Parisian commune, and that might become a revolution.

A Measure for Redress.

It is in the alleys of the east end that these enemies of existing order can be met with and listened to, for there they fear no eavesdropping. They hold meetings nightly and inveigh against what they call the oppression of capital, and talk of what the masses will do when they have the upper hand. Among the labor intelligentsia working among the subject is more calmly considered. "I cannot see," said one of these, "why American workmen should have to riot for their rights when they have the ballot and really have these capitalists at their mercy if they only knew it. They ought to take the railways and telegraph lines for the state, abolish or reduce the tariff and impose a graduated income tax. Then if the capitalists attempted to violate the laws the capitalists would be the 'criminals.'"

Great Cyclists Reunion.

WORK FOR COMMITTEES.

Morley Will Secure Data to Build Up a Home Rule Bill.

LONDON, Aug. 20.—John Morley, the chief secretary for Ireland, is instituting a commission of inquiry into the position of the evicted Irish tenants and the holders of the evicted lands, the commission to report in time to prepare a bill before the opening of parliament in January. The Irish members want the government to make an advance from the treasury for the relief of the evicted tenants, relying on the majority in parliament to confirm the grant. Mr. Gladstone has charged the Irish Hon. Henry Fowler, member of the local government, to move toward completing the local government of the metropolis. The Rt. Hon. A. J. Mundella, president of the board of trade, the Rt. Hon. Henry H. Fowler, president of the local government board, and Tom Burt, liberal member for Morpeth, form the liberal committee appointed to consider the eight-hour man's bill and the amount of liability of the employers' bill. Arthur Herbert Burke, secretary of the National Education Council, James Bruce, chancellor of the Exchequer, and the Rt. Hon. Shaw Lefevre, first commissioner of works from the committee on parish councils. John Morley's reelection in New Castle on Tyne is likely to be attended with difficulty. His co-member, C. F. Hammond, the conservative alderman, says Morley will be defeated by at least 500. Should this occur Sir John Burt, the liberal member from Montgomeryshire, will receive a majority, and Morley will take the seat this made vacant.

Whips Pinched.

LONDON, Aug. 20.—Jim Hall and Ted Prebhard fought at Brighton today, and the former won at the end of the fourth round, after having things his own way from the start. The news that they had met today was a surprise to the public. It was not expected that the men would meet until Monday. It appears that the statement about Monday was given out to deceive

the authorities, as police interference was apprehended, and so Gladstone was the secret kept that only a few sports besides the backers and seconds were present. The fight was for £2,000. The bookmaker offered £1,000 and a private purse of £1,000 being offered by the stock exchange. Hall's backer was Warren Lewis.
